

Thermco Systems Terms and Conditions

1. Basis of contract

- 1.1 These Conditions apply to the Contract to the exclusion of any other terms that the Customer seeks to impose or incorporate, or which are implied by law, trade custom, practice or course of dealing. THERMCO may modify these terms from time to time, with the up-to-date version being available on the web site at www.thermcosystems.com.
- 1.2 A quotation for the Goods given by THERMCO shall not constitute an offer. A quotation shall only be valid for a period of 30 (thirty) days from its date of issue.
- 1.3 The Order constitutes an offer by the Customer to purchase the Goods in accordance with these Conditions (as modified by any specific and typewritten terms of the quotation). The Customer is responsible for ensuring that the terms of the Order and any applicable Specification are complete and accurate. The Order shall only be deemed to be accepted when THERMCO issues a written acceptance of the Order, at which point the Contract shall come into existence.
- 1.4 Any samples, drawings, descriptive matter or advertising produced by THERMCO and any descriptions or illustrations contained in THERMCO's catalogues or brochures are produced for the sole purpose of giving an approximate idea of the Goods referred to in them. They shall not form part of the Contract nor have any contractual force. The Customer waives any right it might otherwise have to rely on any term endorsed upon, delivered with or contained in any documents of the Customer that is inconsistent with these Conditions.

2. Goods

- 2.1 The Goods are described in THERMCO's quotation, including any Specification. THERMCO designed and built Goods shall be (where applicable):

This clause 2.2 shall survive termination of the Contract.
- 2.3 THERMCO reserves the right to amend the Specification if required by any applicable statutory or regulatory requirement, and THERMCO shall notify the Customer in any such event.

This license does not extend to the use of any products not purchased from or supplied by THERMCO or in which have been substantially altered by the Customer or any third party. Except as set forth in the preceding paragraph, the sale, lease, or other transfer of Goods to the Customer does not convey any license or right, by implication, estoppel, or otherwise, to any method or process invention of any patent.

- 2.5 Subject to payment in full for the Goods, THERMCO grants to the Customer a non-assignable, non-transferable, nonexclusive, royalty free right to use, in object code form, any software and related documentation furnished under the Contract in conjunction with the Goods supplied only. For the avoidance of doubt, such licence shall automatically terminate upon the use of the software on any equipment other than that for which it was obtained, termination or any material breach of the Contract, or any breach of copyright law with regard to the Customer's use of the software. The licence granted under this clause is subject to the terms of any agreement packaged with the software, which shall prevail in the event of any inconsistency with this clause 2.5.
- 2.6 Where applicable and if set out in the Order, THERMCO standard process demonstration is included and will be performed to a THERMCO-approved standard.
